

**fly2help uses the power of aviation to change lives**

fly2help offers two charitable programmes:

**Air Smiles Days** are bespoke experience days for children and adults living with profound disability, life-limiting conditions, severe illness, bereavement and isolation. Built around a flight in a light aircraft, the days include a variety of different activities that enables our beneficiaries to leave their worries on the ground and enjoy a memorable day with their loved ones.

An Air Smiles Day offers a day of respite from everyday difficulties and isolation, builds confidence and courage and strengthens the bonds between those taking part, creating lasting memories of happiness to brighten the darkest of days.

**Aim High** is our unique Educational Programme that helps young people learn about the pathway into a career in aviation whilst gaining confidence and a belief in themselves and their future. Through a series of visits to Aviation Companies, talks by industry professionals and hands on experience through trial flights, navigation exercises and ground operations, students learn more about the breadth of career opportunities in the Aviation industry. They are encouraged to think about and develop the skills and attributes needed to fulfil their potential within the industry.

#### **Funding**

We rely solely on donations from individuals and companies, from community based fundraising to larger corporate challenges. Every penny raised goes towards supporting our charitable programmes.
