## Fly Legal Day 2023

On 21 January 2019 the Premiership footballer Emiliano Sala and the pilot tragically lost their lives when the aircraft they were on crashed into the English Channel. This was an illegal charter flight.

In memory of this fatal accident and to continue our efforts to widen awareness and ultimately reduce illegal charter activity, we have designated 21 January... **Fly Legal Day**

We are asking all our members and industry colleagues around the world to unite in spreading the word and to shine a light on this illicit practice with the hope of preventing any future tragedy.

**Join us on social media to show your support and help travellers recognise the dangers.**

**Avoid Illegal Charter Flights...**

**Know what is legal, think twice & fly safe every day**
