Wind | TURKEY

Project ID: GS672

The **Düzova Wind** power project in Izmir, Turkey, began operation in August 2009 with a current capacity of 30 MW. Connected to the national grid, this Gold Standard project reduces greenhouse gas emissions, enhances energy security, improves air quality, and supports local livelihoods. It aims to contribute to Turkey's sustainable renewable energy development. LEARN MORE

Forestry | UNITED KINGDOM

The **Corriechuillie** project will establish an area of native woodland for conservation and biodiversity. It is located within the Cairngorms National Park. At 4,528 sq km (or 6% of Scotland's land mass), the Cairngorms is the UK's largest national park. Famous for its spectacular landscapes and iconic wildlife, the National Park is home to one quarter of the UK's rare and endangered species, and nearly half of its area is considered 'wild land'. Forestry | PAKISTAN

Project ID: VCS2250

The **Delta Blue Carbon** project spans 350,000 hectares of tidal wetlands on Pakistan's southeast coast, playing a vital role in climate change mitigation and supporting rich biodiversity. These wetlands sustain fisheries, migratory birds, and local livelihoods while sequestering significant amounts of atmospheric carbon. This project focuses on protecting and sustainably managing this critical ecosystem. LEARN MORE
